

# HEIMDAL™ SECURITY ⚡

Thor MailSentry - E-mail Fraud Prevention

## Prevent CEO fraud and Business Email Compromise (BEC) attacks in a single blow dealt to hackers.

Spoofed or simple fraudulent emails can cause more damage than advanced persistent threats. All it takes is one distracted employee or faulty procedures. But there's no need to over-complicate your operations.

### Thor MailSentry will keep your email communications safe.

Your business and customers will never have to know:

✓  
The pervasive, evolving threat of phishing

✓  
The frustration of knowing you willingly sent money to thieves

✓  
Imposter threat and CEO fraud

✓  
Convincingly spoofed emails

✓  
Risk due to criminal groups infiltrating a partner or 3rd party

✓  
Man-in-the-email attacks

## Eliminate imposter and insider threat due to BEC scams. Focus just on growing your business.

BEC attacks are a form of social engineering. They prey on people's trusting and cooperating nature in order to cause damage. Thor MailSentry can now apply technological expertise to scan for all possible cues and detect BEC attempts in time.

### Thor MailSentry Product features:

- **Monitoring** of all e-mails alongside existing mailfilter solutions
- **Detection** of BEC, CEO Fraud, Phishing and advanced malware
- **Finding Imposter** Threats (Modified invoices)
- **Live monitoring** and alerting 24/7 by a specialist fraud team
- **Scans content** of attachments in depth - wording, IBAN, SWIFT, Account numbers etc.
- **Can be connected** to external invoice approval systems using API's
- **Alerts you** if historic e-mails are detected as malicious afterwards

No more doubt, no more dangerous emails.

**MailSentry**  
FRAUD-PREVENTION

CEO Fraud and Business Email Compromise (BEC) attacks are one of the fastest growing threats to businesses worldwide.

The global cost of email fraud tops

**\$12.5** BILLION PER YEAR

and

**\$301** MILLION PER MONTH

- FBI

The average number of BEC attacks per month have risen by

**120%** from 2016 to 2018

- FBI

### CEOs and Managing Directors

are among those whose emails are most spoofed by BEC scammers, increasing the chance for their emails to be then taken seriously.

- TrendMicro

BEC schemes account for

**63%** OF ALL BUSINESS LOSSES

reported to the authorities in Australian Competition and Consumer Commission's (ACCC) Scamwatch.

- ACCC

BEC attacks are notoriously difficult to detect,

### blending multiple techniques

in order to win the victim's complete trust: online intel-gathering, phishing, vishing, and/or phishing and vishing and so on.

- U.S. Department of Justice (DOJ)

**Business Email Compromise (BEC) attacks can have devastating consequences on your company and on your personal assets as well.**

The FBI issued a warning in July 2018 that BEC scammers are increasingly targeting the personal finances of people who occupy managing positions in the industries which they are attacking.

# Step up now and stop fraud. We're here to help.

## Thor MailSentry™

Thor MailSentry uses more than 125 vectors of analysis and is fully coupled with live threat intelligence to find and stop Business Email compromise, CEO Fraud, phishing and complex malware before you are compromised. It works on top of any existing mail filtering solutions on Office 365 and Outlook for desktop.

## Foster digital safety.

Raise employee awareness on fraud, but don't rely on it. We can all have bad days and all it takes is one distracted moment for criminals to have their way. Thor MailSentry will keep guard so you don't have to. Its intelligence vectors will scan both security certificates and the contents of each email and attachments to automatically detect any fraud attempt.

## 24/7 Support

Have access to a support team, beyond the cutting-edge technology to combat fraud. Thor MailSentry will automatically flag down any suspicious email communications, but we also have a 24/7 support team on stand-by for helping our customers make sense of any BEC scam threat. You will benefit from full guidance in order to avoid costly mistakes. Stand out from your competition by harnessing the capability of innovative technology, coupled with human ingeniousness.
